## LIGAHISTORIK

Ligan inleddes redan 2010, då som en fantasyliga där flera lag kunde inneha samma spelare. Detta förändrades redan till efterföljande år genom att en draft genomfördes där deltagande lag i tur och ordning valde ut spelare. År 2011 får därför räknas som ligans egentliga startår. Under åren 2010 till 2020 genomfördes ett flertal regelförändringar. De flesta rörde poängberäkning och mindre förändringar som truppstorlek och dess sammansättning.

Under ett flertal av dessa säsonger fördes diskussioner om att omforma ligan till en liga där draftade spelare kunde behållas i laget inför varje ny säsong. Steget togs till slut inför säsong 2020/2021. Denna förändring innebar omfattande regelförändringar och ligan har iom detta övergått till att enbart bara innehålla grundserie och slutspel.

Genom åren har antalet deltagande lag varierat från toppnoteringen om 26 lag 2014 till att i det nya formatet säsongen 2020/21 innehålla 11 lag. Två expansioner har hittills genomförts: Säsongen 2022/23 med Sura Mashed Kidneys och 2024/25 med Bergeron's Battallion.

Totalt har över 50 lag deltagit i någon form.

Med från säsongen 2010 finns fortfarande Kristall Saratov, Wolves och The Tremendous Trio (då under namnet The Fabulous Five).

Från säsongen 2011 (då ligan fick sin nuvarande form), finns också Legion of doom, Team Sparwasser (även med andra halvan av föregående säsong) och The Swedish Penguins. Dessa sex lag får anses vara North of the borders Original Six.

I sammanhanget har också nedanstående lag gjort sig förtjänta av ett hedersomnämmande då de deltagit ända fram till att ligan övergick till sitt nuvarande format 2020:

Från 2010 - Golden Boys och Hallfighters

Från 2011 - Steine

Tranbeck Trophy är den pokal som överlämnas till vinnarna av grundserien i fantasyligan North of the border. Det segrande laget får äran att gravera in sitt namn på pokalen. Dessutom innehar lagets ägare privilegiet att husera pokalen fram till att nästa säongs liga är avgjord.

Pokalen är designad och skänkt som vandringspris av Oscar Söderlund år 2021.

I pokalen har de tidigare segrarna, från 2011 och framåt, graverats in.

Under åren 2011 till 2020 var ligans säsong uppdelad i två delar och varje lags trupp förnyades också helt inför varje enskild del. Endast de lag som segrat i ligans första del, som sträckte sig från NHLs premiärmatch till juluppehållet, har graverats in på pokalen. Detta för att det i denna del ansetts att alla lag haft samma möjlighet att nå framgång då draftordningen lottats och inga tydliga mönster gällande spelare och NHL-klubbars prestation hunnit utkristallisera sig. Säsongens andra draft som genomfördes efter NHLs juluppehåll följde tabellplacering i ligans första del och upplägget gav därmed det lag som lyckats bäst under hösten en stor fördel.

Tranbeck Trophy har fått sitt namn efter Håkan Tranbeck, grundare av fantasyligan North of the border.

### Kuriosa

Bergerons' Battallion gjorde en stark rookiesäsong trots svårigheter med frmf allt skott och målskytte. Men han lyckades ta sig in i rekord-boken! Hans 17 poäng shorthanded är den 8:e bästa noteringen någonsin.

## Kuriosa

Trots sina enorma framgångar har KS aldrig haft en spelare som gjort 80p poäng för honom i en omgång. 79,5p av Nathan MacKinnon i januari 2023 är det högsta.

### Kuriosa

89,5p är R5s personbästa för en spelare - en omgång. Inget konstigt, om det inte var så att det hänt tre gånger!  
Två gånger av Tage T och en av Kaprizov.

### Kuriosa

Russian Five innehar säsongsrekorden både för SG och SGWG. Märkligt nog slagna under två separata säsonger.

## Kuriosa

Inför säsongen 25/26 finns en unik spelare i Russian Five's trupp: **Hendrix Lapierre**  
Han är den enda spelaren kvar som R5 draftat själv, resten har tillkommit via trade eller claim.

## Kuriosa

Sura har haft tre tunga säsonger. Men han har något inte årets vinnare TrTr inte har; ett fantasyrekord! Två stycken tom varav "Mest mv-poäng en säsong" måste sägas vara det finaste.

### Kuriosa

TSP innehar det allra äldsta, icke delade, fantasyrekordet i Notb fantasy med sina 8 PIM för en målvakt säsongen 2020-21.

### Kuriosa

Mål är förstås viktigt, men inte avgörande. När TSP tog hem pokalen 2022-23 gjorde han det med endast tre HT och färre än 300 mål, åttonde mest det året.

Kuriosa

The Tremenduos Trio, som under åren 2010-2020 var känd för att drafta spelare med en fysisk spelstil, har helt "gone soft" sedan dynastistarten. Sista plats i maratontabellen vad gäller både Hits och Blocks. Nionde plats i PIM och inte ett enda GHHT.

## Kuriosa

Vanadin innehar ett av de otvivelaktigt finaste rekordnoteringarna sedan fantasy-starten - Mest poäng i en omgång med de 327p han drog in en natt.

Men visste ni att hans näst bästa runda är 227p? Dvs exakt 100p sämre.

### Kuriosa

Den allra första traden i Notb-fantasy gjordes mellan TSP och TS då Kucherov tradades mot JT Miller+Noah Dobson.  
 Den allra första claimen gjordes av Rocket, då han tog in Chris Kreider kort efter orginaldraften.  
 Den allra första droppen gjordes av Kristall Saratov, då (sannolikt av utrymmesskäl), Owen Tippett åkte i slasken.

## SLUTORD

Efter alla dessa siffror vill jag slutligen nämna förutsättningen för att vi alla kan få den underhållning vi får av en fantasyliga. Håkan har i stort sett helt ensam både startat, utvecklat och skött ligan från dagen den startade till idag. Ett helt enormt arbete med att hålla kontakten med folk, installera regelverk och den rent tekniska biten.

Jag känner mig mer hemma här än i många andra sammanhang måste jag säga. Fantasy hockey är en oas av barnslighet och mild autism där man kan få vara sig själv, utan att någon ser ner på en eller skrattar nedlåtande pga ett enormt intresse för NHL och dess siffror. Jag är sannolikt inte ensam om att tänka så...

Vill också rikta ett särskilt tack till Vanadin, som står för många av de siffror som finns redovisade här. Samt till Bergeron's Battallion som korrekturläst hela boken årligen.

Så slutligen ett stort tack till Håkan för allt jobb och engagemang. Jag skulle aldrig satt ihop den här statistiken om jag inte visste att du kommer läsa den.

Tack
